* On 2/15/2017, the LWVCS board approved submission to the state League of three "Issues for Emphasis". Final decisions about statewide program will be made at the LWVC Convention in Sacramento on June 1-4. If you are interested in attending, contact Elaine Manley.

** This was made choice #3 instead of #2, because one member wants work at the national level on the Electoral College, and some members are interested in the city level. The board may consider ways other than a state study to address our members' interest in election systems.

*** The two County Committees on Housing and Transportation are forming. Interested members should contact Tracey Edwards.
